The Company is engaged in manufacturing and export of mini and rotary kiln cement plants, refractory cement and emery stone minerals and special cement plant. An integrated facility that prepares the raw mix, feeds it to the pro-processing system (kiln), and then grinds the clinker from the kiln system into various cement products. The cement industry has witnessed substantial re-organization of capacities during the last couple of years.

OPPORTUNITIES AND RISKS:

Today's cement manufacturers are faced with a spectrum of challenges as they strive for consistent quality products while reducing input costs. The fluctuating customer demands, high energy costs, strict environmental limits are few of the threats faced by Cement Industry. The Company also strives to improve its efficiency levels in all areas of its operations by reducing the costs thereby increasing the profits. There has been a global rise in demand for the cement due to increased activity in infrastructure. India has also witnessed a growth in cement needs with Governments at Centre and State putting their thrust in the areas of infrastructure development like roads, irrigation projects, housing etc. With this background, the Company sees great opportunity for the industry to grow as a whole.

The Company is engaged in manufacturing of mini cement plant machinery and mineral grinding machinery, refractory cement and processing of minerals. The over all market share of the Company has grown slightly as compared to previous year. During the year sales of machinery division, refractory cement and minerals have decreased. The company due to continuing losses in the refractory section has closed down the refractory units. With the increase in growth in capital goods industry the company is hopeful to show a better result in the machinery manufacturing section in future.

OUTLOOK:

There is enormous opportunity for the growth of Cement Industry. This country has huge potential for cement consumption growth, considering major emphasis of the Government on infrastructure development and boost to housing sector through measures like easy finance, provision of tax incentives etc. the company aims at all round improvement in turnover and profitability in coming years. However, the Company may also face intense competition from other players of the industry and slow down in capital goods industry may affect it adversely.
